

COCA Call Announcement

Clinician Outreach and Communication Activity (COCA)
CDC Emergency Communication System

What U.S. Hospitals Need to Know to Prepare for Ebola Virus Disease

CE= No Continuing Education

Date: Tuesday, August 5, 2014 — **Today!**

Time: 2:00 - 3:00 pm (Eastern Time)

Audio Only: *There are no presentation slides and registration is not required.*

- 888-809-8972 (U.S. Callers)
- 517-319-9299 (International Callers)

Passcode: 1075122

Overview:

The recent Ebola virus disease (or Ebola hemorrhagic fever) outbreak in West Africa has increased the possibility of patients traveling from the impacted countries to U.S. hospitals. Additionally, two American citizens with Ebola virus disease are being medically evacuated to the United States to receive care in a U.S. hospital. During this COCA Call, clinicians will receive updates on the status of the outbreak in West Africa and guidance on what steps U.S. healthcare facilities can take to prepare for the possibility of caring for a patient with Ebola virus disease.

Presenter(s):

Barbara Knust, DVM, MPH

Epidemiologist

Division of High Consequence Pathogens and Pathology

National Center for Emerging and Zoonotic Infectious Diseases — CDC

David Kuhar, MD

Medical Officer

Division of Healthcare Quality Promotion

National Center for Emerging and Zoonotic Infectious Diseases — CDC
