

Public Health Update - H1N1 Influenza

August 11, 2009

As of Friday, August 7, 2009, the Southern Nevada Health District reports the following information regarding novel H1N1 case counts in Clark County:

Week Ending	Confirmed	Cumulative Cases
August 7	23	253
July 31	20	230
July 24	49	210
July 17	16	161
July 10	16	145

Clark County H1N1-Related Deaths to date: 7*

The health district is not reporting any additional deaths for the week ending Aug. 7. One patient remains hospitalized. A majority of samples have been reported through the Southern Nevada Health District's pediatric surveillance program with most patients experiencing mild illness.

-30-

**This number represents Clark County residents only. In early June, the health district reported the death of a hospitalized patient who was a resident of another state.*
