

Public Health Update - H1N1 Influenza

September 15, 2009

As of Friday, September 11, 2009, the Southern Nevada Health District reports the following information regarding novel H1N1 case counts in Clark County:

Week Ending	Confirmed	Cumulative Cases
September 11	29	366
September 4	31	337
August 28	12	306
August 21	15	294
August 14	25	279
August 7	23	254
July 31	21	231
July 24	49	210
July 17	16	161
July 10	16	145

Clark County H1N1-related deaths to date: 11*

The health district is reporting one death for the week ending September 11. The patient was a 45-year-old woman who did not have underlying medical conditions. One patient remains hospitalized with severe illness. The Southern Nevada Health District continues to receive samples from its pediatric surveillance program.

-30-

**This number represents Clark County residents only. In early June, the health district reported the death of a hospitalized patient who was a resident of another state.*
