Influenza - Public Health Update #14

January 9, 2004

The following are updated statistics on the total number of influenza cases reported to the Clark County Health District Office of Epidemiology:

- Two new culture confirmed cases were reported in error - the current case count is 29
- 173 rapid test confirmed cases
- Three flu-related deaths
(This count includes one new report of an influenza-related death in an adult with underlying medical conditions)

Pediatric doses of the vaccine (for children age 3 and younger) are available at the Ravenholt Public Health Center at 625 Shadow Lane. For more information call the Immunization Clinic at 383-1351 or 383-1352.
