March 9, 2011

**National Women & Girls HIV/AIDS Awareness Day, March 10**

**LAS VEGAS** – The Southern Nevada Health District encourages everyone to learn their HIV status. Thursday, March 10 is National Women & Girls HIV/AIDS Awareness Day, a nationwide observance to raise awareness of the impact of HIV/AIDS on women and girls. Testing is always available at the health district and no appointment is necessary. For additional information and testing information, contact the health district's office of HIV/AIDS, (702) 759-0702 or visit [www.SNHD.info](http://www.SNHD.info).

The Nevada State Health Division reports that women account for approximately 20 percent of the 5,895 people living with HIV/AIDS in Clark County, the majority of whom are of between the ages 25 and 34 (37 percent) and 35-44 (33 percent). According to the Department of Health and Human Services' Office of Women's Health, there are 280,000 women in the United States living with HIV/AIDS. While men account for a majority of cases, the disease's impact on women continues to grow as research indicates they face gaps in access to testing and care.

Early diagnosis is critical for people who are HIV positive so they can benefit from treatment. It is estimated that nearly 40 percent of people with HIV are not diagnosed until they have developed AIDS, which can occur 10 years after infection.

Additional recommendations from the CDC include annual testing for individuals who engage in high-risk sexual behavior or use intravenous drugs. Pregnant women should be tested during the early months of their pregnancy to help eliminate transmission of HIV to their infants.

The Southern Nevada Health District's Office of HIV/AIDS/STDs is located inside Annex A at the health district's main public health center, 625 Shadow Lane. Services include confidential testing, counseling, case management and referrals. The health district offers several HIV test options, some with same-day results. In addition, testing is available at several locations throughout the community.

In addition to testing at the health district between 8 a.m. and 4:30 p.m., testing is available at the following locations:

**Thurs. March 10, 1:30 p.m. – 6 p.m.**  
Gay and Lesbian Center of So. Nevada (733-9800)  
953 E. Sahara Ave., B-31, Las Vegas 89104

**Sat. March 12, 8 a.m. – 1 p.m.**  
Rancho High School  
1900 Searles Ave., Las Vegas, 89101
