

HEALTH ALERT FOR ELISE A. HANSON
DOB: 06/25/1981

January 10, 2018

To: Police, Fire Rescue Teams, Detention Centers

This is to advise you of an individual, pictured above, with a severe respiratory illness, who has lived in the southeast area of Las Vegas (Silverado Ranch). She has not been seen since December 30.

She is 36 years old. Her weight is reported as **135 pounds** and she is **5' 9"** tall.

This individual has been diagnosed with a severe respiratory illness. It is imperative that you and your staff be on the alert for this individual. She is likely infectious. If you encounter someone matching this description at your facility or organization, please contact the Office of Epidemiology and Disease Surveillance immediately at 702-759-1015 between 7:30 a.m. and 4:30 p.m. weekdays. For weekends, holidays, or after hours, contact the Health District at 702-759-1300 option 2 and leave a detailed message.

Until a staff member can return your call, please take standard respiratory precautions, and follow isolation protocol for respiratory illness.
