Using EBRS/EDRS in Chrome

In order to use Chrome or Firefox with EBRS/EDRS, an extension or add-on is required to make this work. Steps to do so are mostly the same with minor differences. The following guide will show you how to set up the browser you are using.

Either Browser

1. Go to the [IETab.net](http://ietab.net) website.
2. Jump down to either the Chrome or Firefox section, depending on your browser.

Chrome

3. Click the Chrome logo.

Using EBRS/EDRS in Chrome

4. Click the **FREE** button on the page that opens.

5. Click Add on this box that opens:

6. The following window will appear at the top-right of your browser:
Using EBRS/EDRS in Chrome

7. Right-click the new IE Tab icon in the top-right section of Chrome, and select **Options**.

![IE Tab Options](image)

8. In the new **IE Tab Options** window, add the text `.netsmartcloud.com/*` to the box under **Auto URLs**. Click the blue **Add** button, it will move to the bottom list.

10. Bookmark the page by clicking on the star.

Firefox

1. Click the Firefox logo.
2. Click the **Add to Firefox** button.

4. Restart Firefox using the popup window (or closing and opening it from your desktop).

5. Right-Click the navigation toolbar and click Customize...

6. On the Customize Toolbar window that opens, drag the IE Tab 2 icon from the window up to your Navigation Toolbar on the right.
Using EBRS/EDRS in Chrome

7. Right-Click the new icon you just put in the Navigation Toolbar. A new window opens; in the URL box at the bottom, enter *.netsmartcloud.com/* and click the Add button. It will move to the top window.

8. Go to the EBRS/EDRS website. The way to tell if it loaded correctly using IE Tab is the little icon by the Back button that looks like a LEGO® brick.
Using EBRS/EDRS in Chrome or Firefox

9. Click the Bookmark button, and click **Bookmark This Page**; pick a folder where you want it.
