PETITIONERS:

DISCUSSION:

The enactment of the American Recovery and Reinvestment Act of 2009, Public Law 111-5 establishes certain requirements relating to the use, disclosure, and safeguarding of protected health information by persons providing services to covered entities, and both parties have mutually agreed to satisfy such requirements through this agreement.

The Southern Nevada Health District Office of EMS & Trauma System and Mesquite Fire and Rescue have shared interests in providing oversight and system improvement of the Southern Nevada EMS & Trauma System. A data sharing agreement specifying roles, responsibilities and authorized use of the EMS data will formalize existing arrangements in regard to data management. It is to the mutual advantage and benefit of both parties to enter into this agreement.

FUNDING:

No funding is required.
