## **I. OFFICE OF CHRONIC DISEASE PREVENTION & HEALTH PROMOTION (OCDPHP)**

### **Chronic Disease Prevention Program (CDPP)**

The Slam Dunk Health Program was recognized in May by NACCHO (National Association of City and County Health Officials) as a Model Practice Program. The NACCHO Model Practice Program nationally honors and recognizes outstanding public health practice for programs developed and implemented by local health departments that demonstrate exemplary and replicable outcomes in response to a public health need. Each application is judged by a committee of peers from other health departments and selected from a collection of competitive applications. CDPP staff will be presenting the Slam Dunk Health Program during the NACCHO Virtual meeting in July.

The CDPP sponsors the Clark County School District (CCSD) Safe Routes to School Program (SRTS) including the Achievement Level Program. The Achievement Level Program recognizes individual school efforts to improve and support safe walking and bicycling. Schools must meet specific criteria to advance from one level to the next (first step, bronze, silver, gold, platinum). In order to advance a level, schools must submit an end of year survey that outlines the steps they took during the school year to advance safe walking and biking to school. During the 2019-2020 school year, 20 new schools were added to the Achievement Level Program. This is a significant increase over past years. Of the 20 new schools, 3 schools advanced from the first step to the Bronze level during the school year. SNHD staff attended the Virtual Achievement Level Schools Recognition event on May 18<sup>th</sup>. SNHD and CDPP staff were recognized during the event for their partnership with SRTS.

In May, the City of Henderson (COH) City Council approved the Master Transportation Plan. The plan includes updates for new trail locations and a developer requirement to build trail connections that fall along property lines. This will increase not only the number of trails, but also access to the trail system in the City. CDPP staff continued to assist COH by conducting

walking audits in priority census tracts in Henderson during May. This effort helps to verify GIS data which was used to support development of the Master Transportation Plan and the Parks and Recreation Master Plan and will ultimately be used to identify and prioritize projects to increase walking access to parks, trails and open spaces.

In May, CDPH staff translated the week-long nutrition challenge social media campaign that was promoted in English in April. Each day for 5 days, a new healthy eating challenge was issued. The challenges were posted to the Viva Saludable blog during a week-long period in May. The posts promoted healthy eating and were sensitive to the stay at home orders. The posts also promoted healthy eating resources available on the Viva Saludable website.

In May, CDPH staff facilitated a virtual meeting of the Partners for a Healthy Nevada (PHN) School Wellness Taskforce on May 21<sup>st</sup> with 21 people in attendance. The Taskforce is comprised of PHN members who are working to support school wellness in local schools. Task force organizations updated the group on their response to COVID-19 and how the pandemic has altered their plans for delivering physical activity and nutrition education and resources to schools. CDPH staff created a folder in the taskforce Google drive for "out of school resources" to help with the continuation of nutrition and physical activity education and resources to students and parents.

#### **Tobacco Control Program (TCP):**

This month a total of 20 new apartment complexes with over 5,663 smoke-free units were added to the online smoke-free apartment directory found on the GetHealthy and Viva Saludable websites. Staff assisted apartment managers and owners with model smoke-free policy language and signage.

Staff collaborated with the statewide local health departments to develop a statement recommending businesses voluntarily implement or expand smoke-free policies as they re-open.

A media campaign designed to promote tobacco cessation was launched on various platforms including Spotify, Pandora, and Facebook. The campaign was developed in English and Spanish and aims to increase call volume to the Nevada Tobacco Quitline among African Americans and Hispanics.

### 3. Disease and Outbreak Investigations

- a. **Influenza** The 2019-2020 flu season officially ended on May 16, 2020. All influenza reports can be found on the SNHD website under influenza surveillance.
- b. **2019 Novel Coronavirus (COVID-19):** As of June 1, SNHD had 6719 cases and 343 deaths. The Health District activated the Incident Command System to expand our efforts in COVID-19 Response and gain access to additional staffing and resources. The Health District continues to meet with the Clark County emergency managers, Fire, EMS, School Officials, hospital emergency response and infection control staff to communicate the current response and plan for continued partnership. The Office of Epidemiology and Disease Surveillance (OEDS) at SNHD is receiving and following up on reports of confirmed illness, conducting disease investigations, contact tracing, providing assessment and evaluation information, and working with local medical providers to determine levels of risk and recommended actions for anyone who may be ill or exposed. OEDS is monitoring travelers from high risk countries for signs and symptoms of COVID-19 to detect and confirm any cases in Clark County. OEDS is making recommendations of isolation and quarantine for individuals that are diagnosed with COVID-19 or have been identified as exposed to someone with COVID-19. OEDS and the Southern Nevada Public Health Laboratory are working in coordination with Clark County hospitals and other medical providers to provide guidance for testing and sample collection for Clark County residents and visitors. Contact tracing efforts include training and implementing additional contact tracers from the Environmental Health Program, Medical Reserve Corp, UNLV students, Clark County, the National Guard and City of North Las Vegas Library Staff. This is an ongoing response effort.

**4. Non-communicable reports and updates:**

- a. **Naloxone training:** The Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Substance Abuse Prevention (CSAP) awarded SNHD with the First Responders-Comprehensive Addiction and Recovery Act (FR-CARA) grant in September of 2017. The purpose of this 4-year FR-CARA grant is to train and distribute naloxone to first responders and members of other key community sectors throughout Nevada to better respond to the large-scale burden of opioid overdoses. Trainings continue in Nye County communities, Tonopah, and numerous first responder, medical, and treatment organizations. OEDS has implemented a policy for SNHD staff to carry and administer Naloxone. OEDS has also been given permission at The Clark County Detention Center to place Naloxone in a person's property at the facility.

The following Naloxone trainings/distributions have taken place in the month of June:

No trainings or naloxone distributions occurred in the month of June.

- b. **Overdose Data to Action Grant (OD2A):** Due to COVID-19 response, there are no new updates.

**B. Prevention- Community Outreach/Provider Outreach/Education**

The Center hosted an event on Saturday, June 27<sup>th</sup> in observance of National HIV Testing Day. This was the first day of services since the closure on March 12, 2020. On Monday, June 29<sup>th</sup> the Center resumed business in the Health and Wellness Clinic offering testing for HIV, Gonorrhea, Chlamydia and Syphilis. Huntridge family Clinic staff and medical provider Rob Phoenix was onsite Mon-Thurs at the Center for those presenting with symptoms of an STD and provided PEP/PRP services and rapid start medications for those newly diagnosed with HIV.

In addition, this month OEDS staff have been working with Informatics on the final touches of the Collect2 Protect Project. This project is a home HIV/STD screening services that is purchased on the SNHD web site. Also, OEDS staff have been working with Nevada Dept. of Health and Human Services Division of Public and behavioral Health on HOME HIV testing kits. This Home HIV testing program will help address the needs of Nevada residents whose living circumstances or place of residence make it difficult to access HIV testing either due to stigma, time constraints or rural living. The HOME HIV testing program will include some of our community-based organization partners to receive kits to offer to clients while offering pre/posttest counseling, data collection, the necessary steps for reporting and linkages to care for those who test positive. Each kit will also include information on PrEP/PEP, HIV resources and condoms if the temperature permits for mailing. SNHD OEDS staff will assist with the training and implementing of this service to the community-based partners.

### C. High Impact HIV/STD/Hepatitis Screening Sites

No testing sites to report at this time.

**E. Other:**

- a. Communicable Disease Statistics:** May 2020 disease statistics are attached. (see table 1)

### **III. OFFICE OF PUBLIC HEALTH INFORMATICS (OPHI)**

- A. Continue to maintain and enhance Trisano disease surveillance system.
- B. Continue to maintain and enhance Electronic Message Staging Area (EMSA) systems, and updated EMSA to process Coronavirus ELRs.
- C. Continue to test EpiTrax system (new version of Trisano) internally, and work with Utah and EpiTrax consortium for Trisano to EpiTrax migration
- D. Continue to work on the Southern Nevada Public Health Laboratory (SNPHL) Laboratory Information Management System (LIMS) system to interoperate with other internal and external systems. Informatics is also assisting with the changes that need to be made to the LIMS to accommodate new instruments and testing offered by the Clinical Laboratory.
- E. Assist SNPHL with new instrument preparation, data extraction and reporting needed.
- F. Work with IT to implement and maintain the Electronic Health Record (EHR) system and implement eCW Telehealth.
- G. Assist Office of Epidemiology and Disease Surveillance (OEDS), Office of EMS/Trauma System, Environmental Health (EH), Clinic Services with various data requests, data exports, and report generation.
- H. Continue to enhance the iCircle web application for OEDS, and transmission of STD, HIV and Hepatitis testing data to CDC.
- I. Continue to support Clark county coroner's office (CCCO) on Cognos reports and new CME replacement.
- J. Continue to work with OEDS on OD2A and SVM projects.
- K. Work with NVHIE to enhance COVID19 surveillance by automating COVID19 hospitalization notification, and extract demographics, lab tests and treatment information from HIE CCDs for public health surveillance.
- L. Maintain and update COVID19 dashboard, lab testing and ED admission trend analysis and other urgent data requests.
- M. Maintain automate COVID19 patient notification application and perform QA for contact tracing and identification.
- N. Deployed and maintain an online portal of COVID19 lab results. Clients are able to access their results online.
- O. Develop a test order and report system for SNHD COVID19 POD testing events.
- P. Produce daily COVID19 GIS maps by city and zip codes.
- Q. Maintain applications to automate COVID19 contacts upload and produce COVID19 DECIPHER report.
- R. Continue to work with CDC and UMC to onboard COVID electronic case reporting.
- S. Work with the state contractor (Deloitte) on development of contact tracing and tracking (CTT) system, and upload contacts into the CTT for contact tracing and testing referral.
- T. Completed ELC 4<sup>th</sup> Quarter progress report and CDC ELC HIS 4<sup>th</sup> Quarter engagement meeting.

**V. OFFICE OF PUBLIC HEALTH PREPAREDNESS (OPHP)**

**1. Planning and Preparedness:**

- A. Following President Trump's directive, OPHP staff began working from home in support of the COVID-19 response. Manager, supervisor, senior planners, trainers, MRC volunteer coordinator, analyst and administrative staff may be serving in their SNHD and/or ICS positions in support of both SNHD and/or the MACC/MSST for the Southern Nevada community and hospital needs.
- B. Following SNHD leadership direction, all non-essential meetings have been postponed for staff to attend all essential COVID-19, SNHD, community partner, and hospital meetings.

**2. PHP Training and PH Workforce Development:**

- A. Following SNHD leadership direction, all non-essential training has been postponed focusing on the COVID-19 response and training needs
- B. Employee Fit Testing: Essential SNHD staff continue to receive respirator fit testing. 60 fit tests completed.

**3. Grants and Administration:**

- A. OPHP staff are supporting SNHD and MACC/MSST COVID-19 response and logistical needs.

**Medical Reserve Corps (MRC) of Southern Nevada:** MRC coordinator works in conjunction with SNHD and community partners for volunteers needed for the COVID-19 response. Include TABLE below

MRC volunteers have been withdrawn from regular positions at SNHD Main and East Clinics, Food handler Safety Program, and Pharmacy due to restrictions of COVID. Medical and non-medical volunteers have been deployed to three locations to support COVID response activities: Medical

volunteers were sent to Cashman isolation and Quarantine site for direct patient care; Laboratory Assistants are assisting SNPHL with test kit assembly and general assistance; Medical and non-medical volunteers are performing Contact Tracing at SNHD OEDS. The MRC Program received and processed over 1000 applications between late March and end of June, thanks to help from Immunization and OPHP Administrative Assistants. Total “accepted” volunteers grew from nearly 180 in February to nearly 400 in June. MRC Coordinator recruited, vetted, assigned, and deployed volunteers to all three sites. MRC Coordinator continues to recruit volunteers for OEDS and SNPHL positions and participate in planning and operations meetings as available. MRC Coordinator gave preparedness presentation (virtually) to 65 Arizona College nursing students June 23.
