

**TO: SOUTHERN NEVADA DISTRICT BOARD OF HEALTH DATE: August 26, 2021**

**RE: *Approval of Revisions to the Southern Nevada Health District Immunization Fee Schedule***

---

**PETITION #05-22**

**That the Southern Nevada District Board of Health *adopt the addition of two (2) new immunization fees and revisions to the immunization fee schedule effective upon approval.***

**PETITIONERS:**

**Karen White, CPA, Chief Financial Officer** *KW*  
**Fermin Leguen MD, MPH, District Health Officer** *FL*

**DISCUSSION:**

The Southern Nevada Health District uses a cost allocation methodology in determining fees for services. The Health District includes costs for staff (salaries and benefits), costs for supplies, costs for product, and overhead in the calculation. Proposed additions and changes to the Health District's Immunization Fee Schedule reflects these costs, which is an accurate reflection of the costs to deliver the services and are indicative of price increases from vendors. In clinical pharmacy, an additional methodology using the average weighted price assisted in setting the fee for the medications. These changes will be effective immediately upon approval.

**FUNDING:**

No funds are required in approving the above requested action.

<b>CPT Code</b>	<b>Vaccine</b>	<b>Current Approved fee as of June 2020</b>	<b>New Fee Sept. 2021</b>	
90716	Chicken Pox (Varicella)	\$ 249.00	\$ 275.00
