

**Pediatric Early Warning Sentinel Surveillance (PEWSS) Weekly Bulletin**  
**Southern Nevada Health District**

**June 10, 2015**

Data through June 6, 2015

**Overview**

**About PEWSS**

For the week ending 6/6/2015, the following pathogens were detected with a low volume of testing: Human metapneumovirus, Parainfluenza 4, Rhinovirus/Enterovirus

For additional information about PEWSS, please contact Brian Labus, MPH at the SNHD Office of Epidemiology at 702.759.1299. PEWSS program description, methodology, and weekly bulletins can be viewed at <http://www.southernnevadahealthdistrict.org/stats-reports/influenza.php>

**Table 1. Current Testing results**

| Testing Category                  | Last Week | Four Weeks | Trend | Comment  |
|-----------------------------------|-----------|------------|-------|--|
| Adenovirus                        | —         | Detected*  |       |  |
| Chlamydomphila pneumoniae         | —         | —          |       |  |
| Coronavirus HKU1                  | —         | —          |       |  |
| Coronavirus NL63                  | —         | —          |       |  |
| Coronavirus 229E                  | —         | —          |       |  |
| Coronavirus OC43                  | —         | —          |       |  |
| Human metapneumovirus             | Detected  | Low        | →     | Detected at low levels over the past four weeks      |
| Influenza A                       | —         | —          |       |  |
| Influenza B                       | —         | Low        | →     | All positive specimens were identified as B Victoria |
| Mycoplasma pneumoniae             | —         | —          |       |  |
| Parainfluenza 1                   | —         | —          |       |  |
| Parainfluenza 2                   | —         | —          |       |  |
| Parainfluenza 3                   | —         | Detected*  |       |  |
| Parainfluenza 4                   | Detected  | Detected*  |       |  |
| Respiratory syncytial virus (RSV) | —         | —          |       |  |
| Rhinovirus/Enterovirus            | Detected  | Detected*  |       |  |
| Specimen Volume                   | Low       | Low        | →     |  |

\* Insufficient historical data exists to determine the level of detection
